MyRide-Link SMARTPHONE CONNECTIVITY

Kompleks Hong Leong Yamaha, Lot 57, Persiaran Bukit Rahman Putra 3, 47000 Sg. Buloh, Selangor D. E. Tel: 03-6157 7011 Fax: 03-6157 7002

BEST-IN-CLASS PREMIUM SPECIFICATION

The Ultimate Automatic is back! Now with advanced technologies and premium styling for your riding pleasure. Experience the city instinctively, flexibly and in a new way on the new Yamaha TMAX TECH MAX.

PERFORMANCE

FORGED ALUMINIUM HANDLEBARS
Provides clearer feedback from the front wheel.

POWERFUL, HIGH PERFORMANCE, HIGH QUALITY ENGINE

Premium, Powerful, Liquid cooled 562cc, parallel twin-cylinder, Euro 5, 4-stroke, 4-valve power unit.

LIGHTWEIGHT SPINFORGED WHEELS
10-spoke wheels and specially designed Bridgestone tyres providing a sportier ride.

YAMAHA CHIP-CONTROLLED THROTTLE (YCC-T) WITH APSG
Accelerator Position Sensor Grip (APSG), ride-by-wire unit for an excellent throttle feel.

SMART FUEL CAP
Aircraft-styled electrically operated fuel tank cap that can be opened when the hinge is pulled up within two minutes of turning off the bike's main power. An alarm will sound if the cap is not closed properly when it's powered up.

NEW WINDSCREEN
Electronically adjustable windscreen for added comfort from wind pressure during high speeds.

LED COMBINATION LIGHTS [FRONT & REAR]
Bold looking combination, mono-focus lens headlamps with turn sign signals and unique t-shaped taillight gives it a futuristic look.

ADJUSTABLE BACKREST
A button that allows adjustment of the backrest to one of three preset positions.

LUXURY

INNOVATIVE JOYSTICK
Left handlebar comes with the first of its kind Yamaha Joystick and menu button that allows for scrolling of its menu with a variety of electronic functions.

FULL-COLOUR 7-INCH TFT METER PANEL
Easy to read meter panel with lots of information featuring 3 display modes and smartphone compatibility.

NEW SWITCH PANEL
A convenient centre switch to power on and off, handle lock and seat opening. Single-push electric starter removes the need to hold down the start button for engine starts. Switches come with fluorescent icons for better night visibility.

YAMAHA
MYRIDE-LINK APP
NEW EXPANDED FEATURES WITH SMART PHONE CONNECTIVITY

You can now enrich your riding experience with Yamaha's exclusive MyRide-Link app, designed specifically for this latest TMAX TECH MAX. It pairs and display information from your smartphone onto the TFT meter panel. Handle communications between your smartphone and the TMAX TECH MAX, the bike is equipped with a special Communication Control Unit for data transmissions. The MyRide-Link also comes with the Garmin Motorised App for destination routes and maps. This app must be subscribed before the maps can be used.
